DISPATCH NO. 25X1A6c -2703

Classification

DATE 13 August 1957

TO : CHIEF, NEA
ATTENTION: CHIEF, LOGISTICS
FROM : CHIEF OF STATION, 25X1A6a
SUBJECT: GENERAL - Administrative/Logistics
SPECIFIC - Transmittal of Foreign Real Property Reports, House
Leases and Housing Allowance Applications

1. Transmitted as Attachment A are Foreign Real Property Reports covering Station Houses No. 10 and 12, acquired by the Station during the month of July. The Station has given up Station House No. 5, formerly occupied by and Station House No. 6, formerly occupied by . 25X1A2e
In addition, the Station has contracted for three additional houses to 25X1A2e
be occupied by . Since house is 25X1A2e
not yet ready for occupancy and the leases on the other two houses will not become effective until the arrival of the 25X1A2e
Station will submit reports on these houses next month.

2. It will be noted that annual rentals for these houses are higher than for similar houses leased in the past, but this is due to the current inflation of rents in Station house No. 12, rented at 25X1A6a
 4,000 per month, falls considerably below the standard of houses 25X1A6a
previously acquired at 3,000 per month. Although the cost of 25X1A6a
Station House No. 10 exceeds the housing allowance of the occupant by a considerable amount, the Station expects to derive sufficient operational use from this house to justify the additional expense.

3. Transmitted as Separate Cover attachment B are leases for Station Houses No. 10 and 12, together with Housing Allowance Application forms for 25X1A2e
 who will occupy these houses. Also attached is the 25X1A2e
Housing Allowance application form for who is currently occupying Station House No. 2.
